MUN is preparing for the arrival of the new President, Dr. Gary Kachanoski in July 2010. The MUNFA Executive are looking forward to discussing with him the most important issues facing our Academic Staff Members (ASMs). To this end, we are asking you to share with us the issues that you feel should be brought forward. All information collected will be used only as anonymous aggregate data. We would appreciate your cooperation in answering the following questions:

- *What are the most important academic issues that affect you as an Academic Staff Member?*
- *What can Memorial University do to address these issues?*
