f. Distance Education courses which serve the needs of students enrolled in Grenfell programs should, to the extent possible, be considered as part of the ASM's regular workload for that semester. Normally, a course equivalency of 1.0TU could be expected, however, should the format of the course fall outside the normal lecture format, the equivalency will be determined by the Vice-President (Grenfell) upon consultation with the Unit Head. If, due to scheduling or other pedagogic considerations, the distance education course cannot be counted as part of regular workload, remuneration will be in accordance with Clause 31.47.
